Temp Power – Actions to Achieve Unified Success

- Temporary Power:
  - DHS/EP&R/FEMA
    - **Increase Temp Power PSMA to $300,000**
  - RRCC
    - **Issue the Pre-Dec Deployment MA at H-96 allowing all to Arrive at H-72.**
  - ERT-A/JFO
    - **Immediately bring together the state-federal team to confirm the request and installation processes**
    - **Immediately process the state's generator requests to USACE.**
    - **Identify the number of FEMA gen sets being pushed and their sizes (dictates the number of contractor personnel needed).**
    - **Ascertain the ETA of those assets.**
  - USACE
    - Deploy teams and contractor at H-96
    - Turnover all gensets to contractor to have prepared for install pre-dec.
    - Notify locals of installs that will occur – coordinate for facility to be open
    - Ensure contractor is prepared to install 50 gensets within first 48 hours and be capable of managing 150 units.

Temp Power – Actions to Achieve Unified Success

- Temporary Power:
  - State
    - » **Where possible install backup power generation and maintain**
    - » **Read the recommended plan and develop the database IAW Tab D (convertible to Access/Oracle)**
    - » **Provide your state's critical facility database to:**

    US Army Engineer District Mobile
    Attn: John Sharp, HQ-RSC, Annex
    201 St. Michael Street
    Mobile, Alabama 36602
    Or e-mail the data file to John.C.Sharp@usace.army.mil
    - » **Pre-select staging areas for generator operations**
      - **Five Acres of space with good entrance and egress**
  - Locals
    - » **Facility manager confirm post strike integrity and submit with request**
    - » **Facility Manager ensure the facility is open when the installers arrive**
    - » **County/state - Prioritize requests to the Federal Power PRT**
      - **Please do not double request – ask for a status of original request**

Temp Housing – Actions to Achieve Unified Success

US Army Corps of Engineers®

- Housing:
  - DHS/EP&R/FEMA
    - **Decide who will perform the mission – USACE or IA-TAC.**
  - RRCC
    - **Usually no action in housing.**
  - ERT-A/JFO
    - **Pre-dec – form the local-state-federal housing team at the State EOC with the ERT-A and all sign an MOU that removes the uncertainties.**
    - **Make timely decisions for haul and install and to perform design and construction – reduce uncertainty and contractor standby time.**
    - **Integrate USACE and contractors into FEMA information management and reporting systems**
  - **USACE**
    - **Inform local-state-fed team on what is needed for a successful mission**
    - **Use contract templates or existing contracts to expeditiously start the mission**
    - **Use the local-state-fed team at the JFO to keep all informed of mission progress: success, failures and impediments.**

Temp Housing – Actions to Achieve Unified Success

- Housing:
  - State
    - **Facilitate the waiving or immediate processing of state and local codes that impede trailer and mobile home installation at private sites, commercial sites and group sites.**
    - **Assist the federal team and construction contractors in coordinating with locals.**
    - **Assist the locals in determining viable locations for group sites (distance from original neighborhood, wrap around services)**
  - Locals
    - **Pre-select a 100 unit travel trailer group site and 100 unit Emergency Group Site**
    - **Waive or facilitate the immediate processing of permits**
    - **Apply through the appropriate PA programs for infrastructure improvement – don't try to use the housing mission.**
    - **Aggressively integrate with the team to ensure group sites are located where it is best for the occupants – location to previous residence and wrap around servivces.**
